### DETAILED ACTION

The response filed 12/14/04 consists of amendments to claim 1, cancellation of claims 7-13, addition of new claims 14-23 and remarks related to rejection of claims.

The Examiner requested a terminal disclaimer to be submitted by fax to expedite the prosecution. The terminal disclaimer was not received in the time expected, resulting in this second non-final rejection.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-6, 14-23 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,693,371. Although the conflicting claims are not identical, they are not patentably distinct from each other because the chassis housing disclosed in the patent is not

obviously distinct from the teachings in the application and it would have been obvious to one having ordinary skill in the art to merely change the geometry of the housing to fit components into a fixed space.

***Response to Arguments***

Applicant's arguments, see remarks page 6, filed 12/14/04, with respect to the recited movable door have been fully considered and are persuasive. The non-final rejection of 6/29/04 has been withdrawn.
